

OFFICIAL WARNING

VIOLATION OF FEDERAL REGULATIONS

CASE NO.

OH 10066

VIOLATOR

**Customer # 42723
Certificate # 31-A-0311
David Miller**

ADDRESS (Street, City, State, Zip Code)

**5870 CR 19
Millersburg, OH 44654**

The Department of Agriculture has evidence that on or about **July 27, 2010** - you or your organization committed the following violation of Federal Regulations:

9 CFR, SECTION

Failure to

2.40 (b)(3)

- Establish and maintain programs of adequate veterinary care that include daily observation of all animals to assess their health and well-being.

(The building nearest the phone booth, 5th kennel from the end opposite the water heater, roadside, has a female pekinese with cloudiness on the cornea with a heavy discharge around the eye.

The same building has a yorkie with ear tatto #03 with heavy accumulation of calculi its teeth and red swollen gums.

The second building has a female pekinese, tag#213 with cloudiness in its right eye and haze over its left eye.

The second building has a male yorkie, tag#176with clouding and heavy crusty accumulation around its right eye, and heavy accumulation of calculi on its teeth and red swollen gums, and presence of pus.

The second building has a male poodle, tag#194 with heavy accumulation of calculi on its teeth, red swollen gums, presence of pus and broken tooth on upper left side.)

3.9 (b)

- Food receptacles must be used for dogs. Self-feeders may be used for the feeding of dry food. Keep self-feeders clean and sanitized to ensure there is no molding, deterioration, and caking of feed.

(Nearly all the feeders have a heavy buildup of grime on the inside feed bowl.)

SEP 13 2010

3.11 (a)

- Clean primary enclosures as often as necessary, pans under primary enclosures with grill-type floors and ground areas under raised runs with mesh or slatted floors to prevent accumulation of feces and food waste to reduce disease hazards, pests, insects and odors.

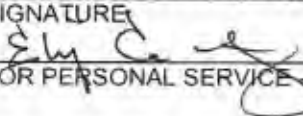

(The washdowns in the first building has an excessive accumulation of feces, stains, mineral deposits and grime. The second building uses shavings to collect waste that are now saturated and contain excessive accumulation of waste.)

3.11 (b)(3)(iii)

- Hard surfaces of primary enclosures and food receptacles must be sanitized using one of the following methods: Wash soiled surfaces with appropriate detergent solutions and disinfectants, or a combination detergent/disinfectant product to remove all organic material and mineral buildup.

(All hard surfaces have a heavy accumulation of grime, fur and other organic material.)

Titles 7 & 9 Code of Federal Regulations were promulgated to help prevent the spread of animal and plant pests and diseases and assure the humane treatment of animals. Since violations of the regulations can have serious and costly impact detrimental to the public interest, you are warned of this violation. Any further violation of these regulations may result in the assessment of a civil penalty or criminal prosecution. If you have any questions concerning this warning or violation, please contact the listed APHIS Official.
